School Year Calendar

Calendar Suggestions

What can you do with blank calendar pages? More than you would think! You can use them in your role as a teacher, and you can also use them with students. Unlike wall calendars or journal-style calendars, these pages are 8 1/2" by 11" and are available in both landscape and portrait format. They're perfect for duplicating and keeping in a 3-ring binder or notebook. Furthermore, the blocks for Saturday and Sunday are smaller, providing more room for writing on the weekdays.

Ways to Use The School Year Calendar

- **Instructional Planning** - Create instructional timelines for teaching specific subject areas or special thematic units.
- **Personal Meeting Planner** - Keep a copy of each month's calendar page in the front of your planbook to note important meetings and personal deadlines.
- **Literature Circle Schedules** - Give the calendar pages to students to use when planning their reading page assignments and meeting dates.
- **Attendance Graphing** - Have students track attendance and tardies by using stickers or color-coding to identify dates that they arrive at school on time. (For detailed instructions, see the Classroom Goal Setting ebook available from Teaching Resources at www.lauracandler.com)
- **Project Planning and Organization** - Teach students to use the calendars to divide their projects into manageable segments. They can set mini-deadlines to keep themselves on track.
- **Homework Planner** - Have students jot down homework and other assignments for a single subject area.
- **Classroom Event Calendar** - Mark all your important events, test dates, and deadlines on one calendar page. Duplicate and send home to parents to keep as a handy reference.
- **Home Reading Log** - Have students keep a monthly calendar in their homework folders to use for recording minutes of reading. Just ask parents to write in the minutes and initial each time they read.

This school year calendar is provided as a free resource from Laura Candler's Teaching Resources (www.lauracandler.com). You may share this free calendar with others as long as the credit line remains on each page, but please do not sell it or include it in a product for sale. Visit Teaching Resources for more free teaching materials and helpful resources!

More Teaching Resources from Laura Candler

Daily Math Puzzler Program (Levels A - D)

I just implemented Laura's Math Puzzlers, and after two weeks I can already see changes in my class. They are picking up good habits like underlining key words, and writing complete answers already! Each day when we take out the sheet, they know what to do and enjoy doing it. I think part of the fun comes from the program's title "Math Puzzlers". Somehow, they seem to think puzzles are way more fun than math word problems. I also have to say that the breadth of topics and strategies covered in just one weekly sheet is impressive. It is a great way to keep math topics fresh, and have kids apply them to real situations. Each problem could be solved using different strategies, so it has been great for my kids to see all the different ways they could have approached the problem.

~ Dawn, Minnesota

Math Stations for Middle Grades

I just downloaded your Math Stations for Middle Grades, and it is EXACTLY what I was looking for! This is my second year teaching math, after eleven years as a communications teacher. I don't feel I made math fun or interesting for my students last year, which means they didn't learn the things I wanted them to learn about setting goals for themselves and enjoying the challenge for its own sake. Now I finally know how to do that, and I will be able to not only use your activities but build from them and tailor them to my own students' specific needs. Your math stations provide exactly that element of fun practice and social sharing that I hoped to add this year. I can't wait to get started! ~ Shari Miller, Texas

Classroom Goal Setting

WOW! Thank you so MUCH! I just downloaded your Goal Setting Power Pack and I LOVE it! I was most pleasantly surprised because I teach a combination class of grades 6-7-8, and wasn't sure if your pack would be "old" enough for my students! No need to worry....it's perfect! Thank you for a wonderful, quality product!

~ Nancy Berner, Pennsylvania
